13th Annual Conference

CHANGING TIDES IN
NEONATAL CARE

Monday
November 5, 2007

Hilton La Jolla Torrey Pines
Hotel

10950 North Torrey Pines Rd
La Jolla, CA 92037
1-858-558-1500

Conference Information

This conference is designed for neonatal health care professionals and interested students, offering current information pertinent to everyday practice in the Neonatal Intensive Care Unit.

Accreditation The Southern California Association of Neonatal Nurses (SCANN), a chapter of the National Association of Neonatal Nurses (NANN), is approved by the California Board of Registered Nursing (provider# ECP9626) to offer 8 contact units for this educational conference.

Tuition This conference is limited to 120 participants. Early registration is recommended. Your registration fee is due by Oct. 22, 2007 and includes: full tuition, continental breakfast, lunch, and refreshments at breaks. A full refund will be given for cancellations received in writing (or via e-mail) by Oct. 22, 2007. Registration confirmation and a map will be sent to all registrants. Please provide an e-mail address to expedite receipt of registration confirmation. If confirmation is sent via e-mail no hard copy registration will be provided unless requested by the registrant.

SCANN The Southern California Assoc. of Neonatal Nurses was established in 1989. Our goal is to facilitate an exchange of information and to establish a forum for networking among neonatal nurses and other neonatal health care professionals, making continuing education available to its members on a regular basis. NANN membership is expected of SCANN members. For more information about SCANN or the 13th annual conference, please write or e-mail to: SCANN, PO Box 711652, San Diego, CA www.neonatenurses.com

info@neonatenurses.com

Conference Objectives: Upon completion of this educational offering, the participant will be able to:

1. Describe and practice 3 techniques for avoiding stress and burnout in the workplace
2. Understand the benefits of research based music therapy in the NICU
3. Discuss exposures of toxicological significance which affect conditions of pregnancy and birth outcomes
4. Be aware of common environmental pollutants
5. Identify the role of omega-3 fats in infant brain development
6. Describe the vulnerabilities, nutritional requirements, and feeding issues of the late preterm infant
