Conference Information

This conference is designed for neonatal health care professionals and interested students, offering current information pertinent to everyday practice in the Neonatal Intensive Care Unit.

Accreditation The Southern California Association of Neonatal Nurses (SCANN), a chapter of the National Association of Neonatal Nurses (NANN), is approved by the California Board of Registered Nursing (provider# ECP9626) to offer 7 contact units for this educational conference.

Tuition This conference is limited to 120 participants. Early registration is recommended. Your registration fee is due by Oct. 22, 2008 and includes: full tuition, continental breakfast, lunch, and refreshments at breaks. A full refund will be given for cancellations received in writing (or via e-mail) by Oct. 22, 2008. Registration confirmation and a map will be sent to all registrants. Please provide an e-mail address to expedite receipt of registration confirmation. If confirmation is sent via e-mail no hard copy registration will be provided unless requested by the registrant.

SCANN The Southern California Association of Neonatal Nurses was established in 1989. Our goal is to facilitate an exchange of information and to establish a forum for networking among neonatal nurses and other neonatal health care professionals, making continuing education available to its members on a regular basis. NANN membership is expected of SCANN members. For more information about SCANN or the 14th annual conference, please write or e-mail to: SCANN, PO Box 711652, San Diego, CA www.neonatenurses.com

info@neonatenurses.com

Conference Objectives: Upon completion of this educational offering, the participant will be able to:

1. Describe the purpose and components of the neurologic examination.
2. Recognize sensori-neural deficits as sequela of prematurity.
3. Identify latest treatment modalities in the treatment of Gastroschisis.
4. Identify at least one new approach to neonatal pain assessment or management.
5. Identify and discuss future directions for surfactant replacement therapy in the treatment of respiratory disease in infants.
6. Learn how UCSD has structured a program to support optimal nutrition for premature infants.
7. Understand the rationale of a team approach for improving patient safety.

Faculty
