Changing Tides in Neonatal Care

Monday November 1, 2010
Hilton La Jolla Torrey Pines

16th Annual Southern California Association of
Neonatal Nurses Conference

Conference Information

This conference is designed for neonatal healthcare professionals and interested students, offering current information pertinent to everyday practice in the Neonatal Intensive Care Unit.

SCANN—The Southern California Association of Neonatal Nurses was established in 1989. Our goal is to facilitate an exchange of information and to establish a forum for networking among neonatal nurses and other neonatal healthcare professionals, making continuing education available to its members on a regular basis. For more information visit www.neonatenurses.com

Accreditation— The Southern California Association of Neonatal Nurses (SCANN), a chapter of the National Association of Neonatal Nurses (NANN), is approved by the California Board of Registered Nursing (provider #ECP9626) to offer 8 contact units for this education conference.

Tuition— Your registration fee includes: full tuition, continental breakfast, lunch, and refreshments at breaks. Registration confirmation will be sent to all via e-mail. ***Tuition does not include parking at the Hilton (\$10)**

Conference Objectives: Upon completion of this educational offering, the participant will be able to:

1. Discuss the implication of policy decision on nursing practice and the patients in their community.
2. Better understand the state of neonatal care world-wide.
3. To discuss the implication of the results for the Support trial for the management of the extremely low birth weight infant.
4. To better understand the causes and management of discordant twins.
5. Identify risk factors for depression among parents of NICU infants.
6. Identify some key aspects of teaching that should be done to prepare a patient for what to expect in labor, delivery and recovery.

Faculty

Patricia McFarland, MS, RN, FAAN
Chief Executive Officer
Association of California Nurse Leaders
Sacramento, CA
